

Community Center Park Cleanup Day – 9 July 2016

COME HELP - The Community Center Partnership has rescheduled the first cleanup day at the Community Center Park property. It will be next Saturday, July 9, at 11:00 a.m. Thank you for those who have volunteered to help us with this. We hope you can make it!

LOCATION – At the end of Wintercamp Trail across from the Indian Burial Mound.

Marty Johnson and Fairway Home Services will provide trash bags and their truck for collecting and disposing the trash. So, bring your gloves and wear boots and come help clean up the area. Many hands make light work. Don't forget to bring your bug repellent too!

Please make sure you do not park on any homeowner's property. Please park on the road or on the gravel road past the property entrance.

UPDATE ON OUR PLANS – The wetlands survey was done on the property, with areas of concerns marked. This was done after the very heavy rains we had in the Spring. Then a detailed wetlands survey was done to precisely mark the areas of designated areas on the plat. This survey plat has been forwarded to the Environmental Services company who will coordinate with the Army Corps of Engineers to certify the findings. The survey as shown has NO impact on any construction project we have envisioned. We still need to comply but it remains a slight bump in the road.

We continue to receive feedback from homeowners wanting to get more information, volunteer their time and offering monetary support. We already have two homeowners who have committed to funding the construction of two small pavilions of approximately 25 feet by 36 feet in size. We will begin to develop a business plan in a few weeks to better crystalize our plans for the property. We will also be asking for input and feedback from the community.

Sincerely,
